Video Wall

It's crisp, durable, and brilliantly informative.
and ultra-slim bezels for a truly immersive experience.

Information

1 Using a 55-inch panel

Video wall products use only 55-inch panels and are highly resistant to dust and moisture.

2 Configure super ultra-slim bezels

Ultra-slim bezels at 0.88 and 1.73 mm B to B seamlessly connect the screen for a screen immersion armor.

3 Minimize disconnects between screens

A/D boards that support screen splitting to minimize disconnection between screens

4 Configuring a Multivision System

Utilizing Daisy Chain technology based on Displayport In / Out Ports, you can build a system that suits your deployment environment.

5 Use it in a variety of places

Retail, cosmetics, and fashion industries, as well as broadcast stations and military control centers. centers in broadcasting, military, and more.

6 Vivid, uniform image quality

It's mounted above eye level for a higher viewing angle that delivers distortion-free colors without distortion.
